

# AmpliNite™

MIX WELL  
BEFORE USE

30.0.0. (30)

ACT 36, 1947 K8137

High nitrogen solution with added humic acid to enhance nitrogen levels in crops. AmpliNite is a highly effective source of soil and leaf application of nitrogen, to take care of a high nitrogen demand in vegetative state of the plants.

Nitrogen (N) 300 g/kg  
Organic acids 100 g/kg

**APPLICATION GUIDE:** Apply through Boomspray, aerial or overhead irrigation. DO NOT apply when conditions are extremely hot. Best applied in temperatures in the range of 5 – 25°C.

#### MIXING INSTRUCTIONS

1. Do not apply as a concentrate with other chemicals.
2. Half fill tank to the required volume with water.
3. Add the required amount of AmpliNite™.
4. Add appropriate amount of non-ionic wetting agent as per manufacturer's instructions.
5. Fill the remainder of tank with water and maintain agitation.

APPLICATION GUIDE	RATE L/Ha	WATER
Soil	20 - 100	200 - 500
Foliar	5 - 20	1 : 200

For other crop systems (tree crops, vegetables) consult a qualified agronomist.

#### STORAGE

- DO NOT STORE product in direct sunlight.
- DO NOT STORE product in temperature below 5°C or above 30°C.
- DO NOT STORE DIRECTLY ON FLOOR, product to be raised from ground with palettes.

#### COMPATIBILITY

Product is compatible with majority of agro chemicals, please check with the manufacturer. Please be aware that physical compatibility does not guarantee efficacy. Jar test before use.

#### CONDITIONS OF SALE

These goods are manufactured and tested to specific standards and sold in good faith, however, no guarantee is given due to the failure by the user to follow the labels instructions or to the occurrence of conditions, which could not have been foreseen in terms of the registration.
